Features and benefits
- High impact strength - Protects construction membranes from damage in heavy duty applications
- Embossed - anti-slip surface
- Heavy duty - protection against rebars, wind uplift and following trades

Product description
The Visqueen TreadGUARD 1500 is a heavy duty HDPE ridged plastic protection board with an embossed upper surface.

The board is 1m x 2m printed Visqueen TreadGUARD1500 for ease of identification.

Approvals and standards
- Third party accreditation - BBA certified as a system component.
- Environmental Management System ISO 14001:2015

Usage
The Visqueen TreadGUARD 1500 is used to protect construction membranes in heavy duty applications.

It is suitable in horizontal applications for the protection of dpm and gas membranes from rebars and following trades.

System components

Visqueen TreadGUARD 1500, 1m x 2m
Visqueen TreadGUARD 1500, 1m x 2m

Storage and handling
Store in a dry and clean environment in its current packaging. The Visqueen TreadGUARD 1500 should not be exposed to long periods of ultraviolet light.

Preparation
Ensure the surface and working areas are not waterlogged and free from sharp protrusions.

Installation
Apply the TreadGUARD 1500 boards above the laid construction membrane and butt joint together. Joints can be taped with VisqueenPro Single Sided Jointing Tape applied equidistant over the junction. Apply pressure to the tape to ensure adhesion.

Usable temperature range
The system is recommended to be used between above 5°C.

Additional information
Ensure the membrane is free from sharp protrusions prior to using the board.

About Visqueen
The Visqueen name has long been recognised as one of the leading manufacturers of high quality advanced membrane technologies and design based solutions by specifiers, distributors, builders, merchants and contractors throughout the UK and Europe.

For further guidance on the Visqueen services shown below, please refer to the relevant section of the Visqueen website (www.visqueen.com) or contact Visqueen Technical Services on +44 (0) 333 202 6800 or enquiries@visqueen.com

Complete Range, Complete Solution

Visqueen Technical Support
Visqueen combine an extensive product portfolio with industry leading levels of service and support which includes guidance over the phone, bespoke CAD drawings to help with complex detailing, electronic NBS specifications and access to a dedicated team of highly knowledgeable and experienced field based Technical Support Managers.

Visqueen Technical Support is available to all our customers including architects, specifiers, distributors, builders, merchants, contractors and end users. All of our technical team have been awarded the industry recognised qualification Certificated Surveyor in Structural Waterproofing (CSSW).

Visqueen CPD Seminars
The Visqueen Continuing Professional Development (CPD) Seminars provide up-to-date information on changes within Building Regulations/Building Standards and nationally recognised industry guidance affecting damp proofing, water vapour control, hazardous ground gas protection and below ground structural waterproofing.

The one hour seminars have been produced for design specialists within the construction sector and are delivered by our team of Technical Support Managers.

Visqueen PI designs and special projects
From initial design to the completed project, Visqueen are with you every step of the way. Whether it be hazardous ground gas protection and/or below ground waterproofing protection employing barrier, structurally integral or drained systems, Visqueen can offer professional indemnity (PI) insurance for bespoke Visqueen design solutions.

Visqueen Technical Support Managers work with all stakeholders to provide cost effective Visqueen solutions offering complete peace of mind throughout the construction phase and beyond.

Visqueen Training Academy
Based at our manufacturing facility in Derbyshire, the Visqueen Training Academy is available to support Visqueen customers throughout the UK by providing a wide range of both theory and practical skills related training.

Courses include one day product awareness training for our distributors and builders merchants to help them in their day-to-day jobs, through to intensive three day courses giving detailed hands-on training in the practical skills required for safe and robust product installation.
