

Visqueen Liquid Gas Membrane Primer, 5L

Features and benefits

- Highly penetrative formulation - same day application
- Adaptable - suitable for most surfaces including green concrete
- Part of the Visqueen Liquid Gas Membrane range

Product description

Liquid Gas Membrane Primer is a one component styrene-butadiene rubber primer suitable for all substrates. The product is supplied in a 5 litre tin.

Approvals and standards

- Quality Management System ISO 9001

Usage

To be used as a primer for Visqueen Liquid Gas Membrane and is suitable for various substrates. The highly penetrative formulation seals and primes surfaces prior to the use of the Visqueen Liquid Gas Membrane. It is a same day primer and the application of the membrane must be done on the same day the primer is applied.

Visqueen Liquid Gas Membrane system is suitable for damp proofing, gas proofing and waterproofing a variety of substrates including concrete, masonry and metal, above and below ground level including retaining walls, cast concrete, precast concrete and steel work. The product is ideal for complex detailing and difficult to reach areas.

Visqueen Liquid Gas Membrane Primer, 5L

Storage and handling

Store the product away from any sources of ignition at temperatures between 5°C and 30°C. Visqueen Liquid Gas Membrane Primer will remain in optimum condition if stored within the above temperature range in its sealed container for a minimum 12 months. Once opened use as soon as possible. Clean tools and equipment first with paper and then using a solvent cleaner, rollers will not be re-usable.

Preparation

No mixing or stirring is required use straight from the tin.

Installation

Apply by roller based on the coverage rates of 0.3lt/m², do not allow the primer to puddle. Ensure the Primer is applied evenly and that sags and runs are brushed or rolled out.

Usable temperature range

It is recommended that Visqueen Axiom Primer is used above 5°C.

Additional information

Do not over apply and allow to puddle. Use suitable PPE including gloves and during the application. To avoid the risk of spillage, always store and transport in a secure upright position.

Visqueen Liquid Gas Membrane Primer, 5L

Health and safety information

We strongly recommend that the MSDS is read prior to use or transportation.

Visqueen Technical Support

Visqueen combine an extensive product portfolio with industry leading levels of service and support which includes guidance over the phone, bespoke CAD drawings to help with complex detailing, electronic NBS specifications and access to a dedicated team of highly knowledgeable and experienced field based Technical Support Managers.

Visqueen Technical Support is available to all our customers including architects, specifiers, distributors, builders merchants, contractors and end users. All of our technical team have been awarded the industry recognised qualification Certificated Surveyor in Structural Waterproofing (CSSW).

Visqueen CPD Seminars

The Visqueen Continuing Professional Development (CPD) Seminars provide up-to-date information on changes within Building Regulations/Building Standards and nationally recognised industry guidance affecting damp proofing, water vapour control, hazardous ground gas protection and below ground structural waterproofing.

The one hour seminars have been produced for design specialists within the construction sector and are delivered by our team of Technical Support Managers.

Visqueen PI designs and special projects

From initial design to the completed project, Visqueen are with you every step of the way. Whether it be hazardous ground gas protection and/or below ground waterproofing protection employing barrier, structurally integral or drained systems, Visqueen can offer professional indemnity (PI) insurance for bespoke Visqueen design solutions.

Visqueen Technical Support Managers work with all stakeholders to provide cost effective Visqueen solutions offering complete peace of mind throughout the construction phase and beyond.

Visqueen Training Academy

Based at our manufacturing facility in Derbyshire, the Visqueen Training Academy is available to support Visqueen customers throughout the UK by providing a wide range of both theory and practical skills related training.

Courses include one day product awareness training for our distributors and builders merchants to help them in their day-to-day jobs, through to intensive three day courses giving detailed hands-on training in the practical skills required for safe and robust product installation.
