CRITICAL GUIDANCE NOTES

Visqueen Guidance Details are for illustration purposes only. It is the lead designer's responsibility to ensure Guidance Details are incorporated correctly into construction

Visqueen take no project design liability, or responsibility for the use of Guidance Details. Visqueen have no control over the situation in which the products are installed. Visqueen provide a Contract Design Service where project specific drawings can be produced. **Contact Visqueen Technical Services for** further information.

Site construction sequencing should be assessed before the appropriate Guidance Detail is selected and approved by the lead

All Visqueen materials must be installed in strict accordance with the Visqueen Product Datasheets and applicable third party

DPCs and DPC cavity trays to be installed in accordance with BS 8215:1991. PD 6697:2019 and BS 8000-3:2020.

Visqueen air and vapour control layers (AVCLs) should be installed in accordance with the recommendations of BS 5250:2021.

Visqueen AVCLs in roof and wall applications require permanent mechanical fixing, normally achieved by over-boarding the AVCL with a plasterboard or other construction board.

Drawing not to scale, use figured dimensions only. All figured dimensions are in

Guidance Detail
