*Details Issued for Guidance Only. Designer’s Approval Required. Site construction sequencing should be assessed before the appropriate Visqueen Standard Detail is selected & approved by the Designer. In order to develop a robust design for protecting a structure against groundwater, a Risk Assessment must be carried out in line with the guidance given in BS8102:2009. The Designer may need to specify one or a combination of waterproofing measures. All Visqueen materials must be installed in strict accordance with the manufacturer's instructions. Refer to the current Visqueen datasheets. Do Not Scale - Use Figured Dimensions Only.*
