2. Visqueen Low Perm Gas Membrane.

Typical Internal Floor Gully Details.

- FFL
- 150mm SEALED LAPS
- Membrane clamping collar

Detail Issued for Guidance Only.
Designer’s Approval Required.

Site construction sequencing should be assessed before the appropriate Visqueen Standard Detail is selected & approved by the Designer.

In order to develop a robust design for protecting a structure against groundwater, a Risk Assessment must be carried out in line with the guidance given in BS8102:2009.

The Designer may need to specify one or a combination of waterproofing measures.

All Visqueen materials must be installed in strict accordance with the manufacturer’s instructions. Refer to the current Visqueen datasheets.

Do Not Scale - Use Figured Dimensions Only.
