</table>

**Important Note :-**
Visqueen Preformed Corner Cloaks, Stop Ends & Threshold Cloaks must be used to ensure the integrity of the detail is maintained.

---

**Typical Edge Detail - Suspended Slab, Option 3.**

**Detail issued for Guidance Only. Designer's Approval Required.**

Site construction sequencing should be assessed before the appropriate Visqueen Standard Detail is selected & approved by the Designer.

In order to develop a robust design for protecting a structure against groundwater, a Risk Assessment must be carried out in line with the guidance given in BS8102:2009.

The Designer may need to specify one or a combination of waterproofing measures.

All Visqueen materials must be installed in strict accordance with the manufacturer's instructions. Refer to the current Visqueen datasheets.

Do Not Scale - Use Figured Dimensions Only.
