Scale: NTS
Date: May 2020
Drawing No: RE-CD-09

Visqueen Cavity Drain Membrane System

Detail issued for Guidance Only. Designer’s Approval Required.

Site construction sequencing should be assessed before the appropriate Visqueen Standard Detail is selected & approved by the Designer.

In order to develop a robust design for protecting a structure against groundwater, a Risk Assessment must be carried out in line with the guidance given in BS8102:2009.

The Designer may need to specify one or a combination of waterproofing measures.

All Visqueen materials must be installed in strict accordance with the manufacturer's instructions. Refer to the current Visqueen datasheets.

Do Not Scale - Use Figured Dimensions Only.

Visqueen Cavity Drain Membrane System -

1. All cut-outs in concrete slabs to Structural Engineer's design.
2. Visqueen Water Channel to be surrounded in 20mm rounded washed stone.
